Italian Government Action Plan on E-112 and e-Call

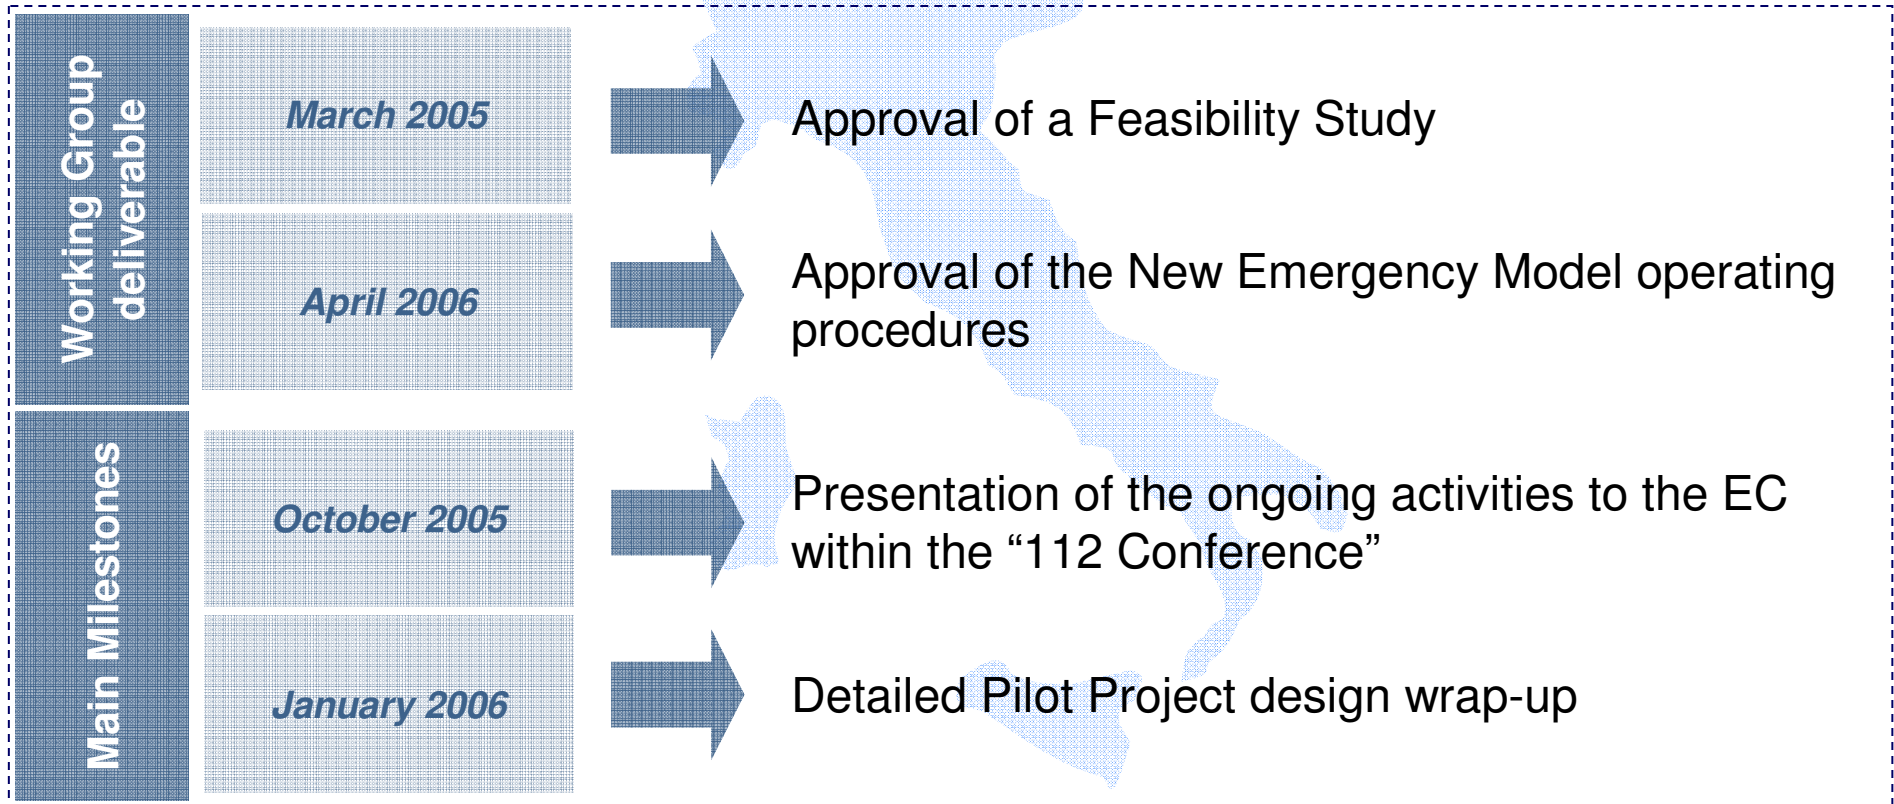

Regulatory environment

Italian Government Activities on E-112

Prime Minister Decree (August 2003): established a Working Group for the set-up of E-112 in Italy

Conclusions

The Italian Government is committed to continue with the activities linked to E-112 and e-Call implementation; in particular is immediately available for :

- Participating to European activities linked to the e-Call implementation (i.e. attending actively to the eSafety technical working groups)
- Meeting the Industry and the Research stakeholders to address the synergies for a common action within the eSafety activities
