[Final Report Definition - Index]

- Final report index has been defined having the following topics (1):
 - Objective of this report
 - The Intelligent Infrastructure WG
 - The definition of Intelligent Infrastructure
 - Identification of Intelligent Infrastructure related Services (incl. quality, interoperability)
 - Added Value of the Intelligent Infrastructure

[Final Report Definition - Index]

- Final report index has been defined having the following topics (2):

- Road categories
- Basic Requirements
- Current roadside infrastructure
- IT architecture & Communication Supports & Protocols
- Recommendations for the deployment of II services
- Relevant developments and projects
- Annex: a.o.: Participants/members of the **II WG**

[Status for each topic:]

- Objective of this report ➤ Done
- The Intelligent Infrastructure WG ➤ Done
- The definition of Intelligent Infrastructure ➤ Done
- Identification of Intelligent Infrastructure related Services (incl. quality, interoperability) ➤ Inter-urban: done
Urban: Jan10
- Added Value of the Intelligent Infrastructure ➤ Jan10

6

[Status for each topic:]

- Road categories
- Inter-urban: done
- Urban: Jan10
- Basic requirements
- Jan10
- Current roadside infrastructure
- Jan10
- IT architecture
- Feb10
- Communication Supports & Protocols
- Dec09

7

[Status for each topic:]

- Recommendations for the deployment of Intelligent Infrastructure services ➤ Jan/Feb10
- Relevant developments and projects ➤ Jan10
- Annex: a. o.: Participants/ members of the II WG ➤ Done
