

Potential Actions to Support Deployment of eCall

eSafety Forum Meeting
Ljubljana
24 - 25 April 2008

Overcome current roadblocks

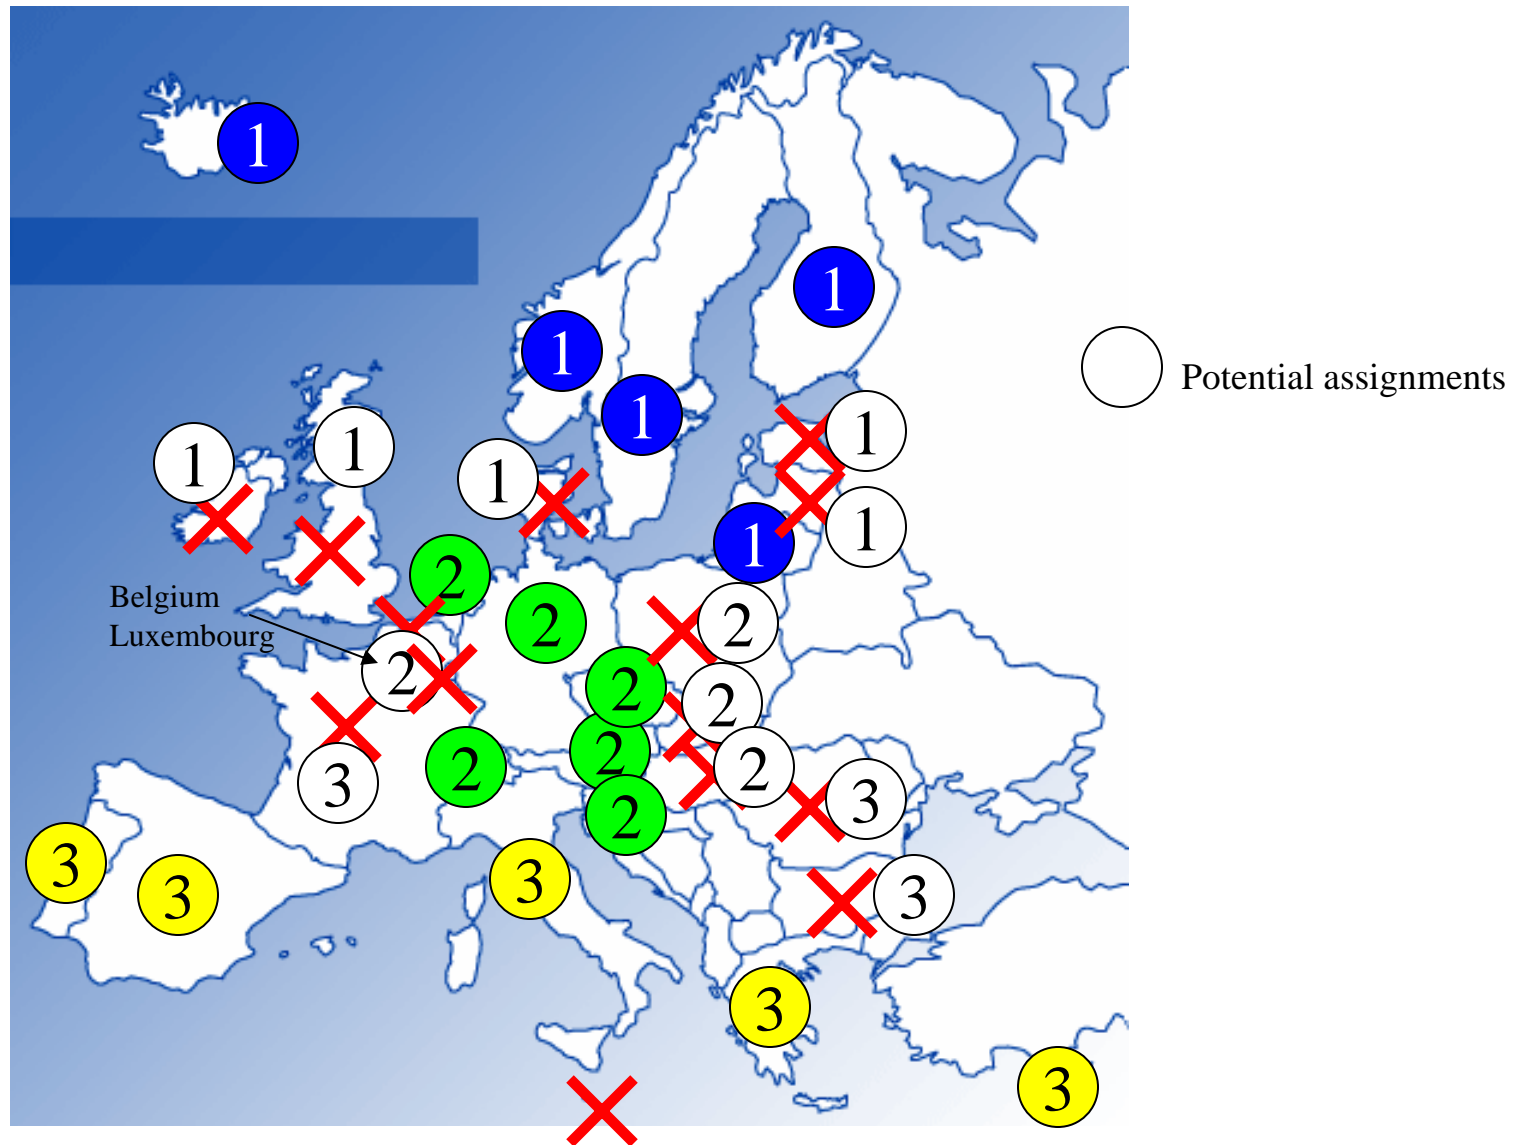

- ❑ Unclear relationship between public and private emergency services
- ❑ Lack of a positive business case for some stakeholders
- ❑ Lack of commitment from Member States
- ❑ Fragmented European market
- ❑ Lack of Interoperability
- ❑ Lack of trust in research data
- ❑ Delays in Standardization
- ❑ Timing

Multi-Step Approach

1. **Investigate/update the status** of emergency services in each country
2. **Define** a feasible overall (umbrella) **vision**
3. **Form a national eCall roll out platform (NERP)** and nominate a **national eCall Coordinator**
4. **Form three regional clusters**
5. **Set up regional eCall roll out platforms (RERP)** and nominate **cluster leaders**
6. **Develop regional roll-out plans**
7. **Found European eCall Roll out Platform (EERP)** under the leadership eSafety Forum to replace ECDG

European Clusters

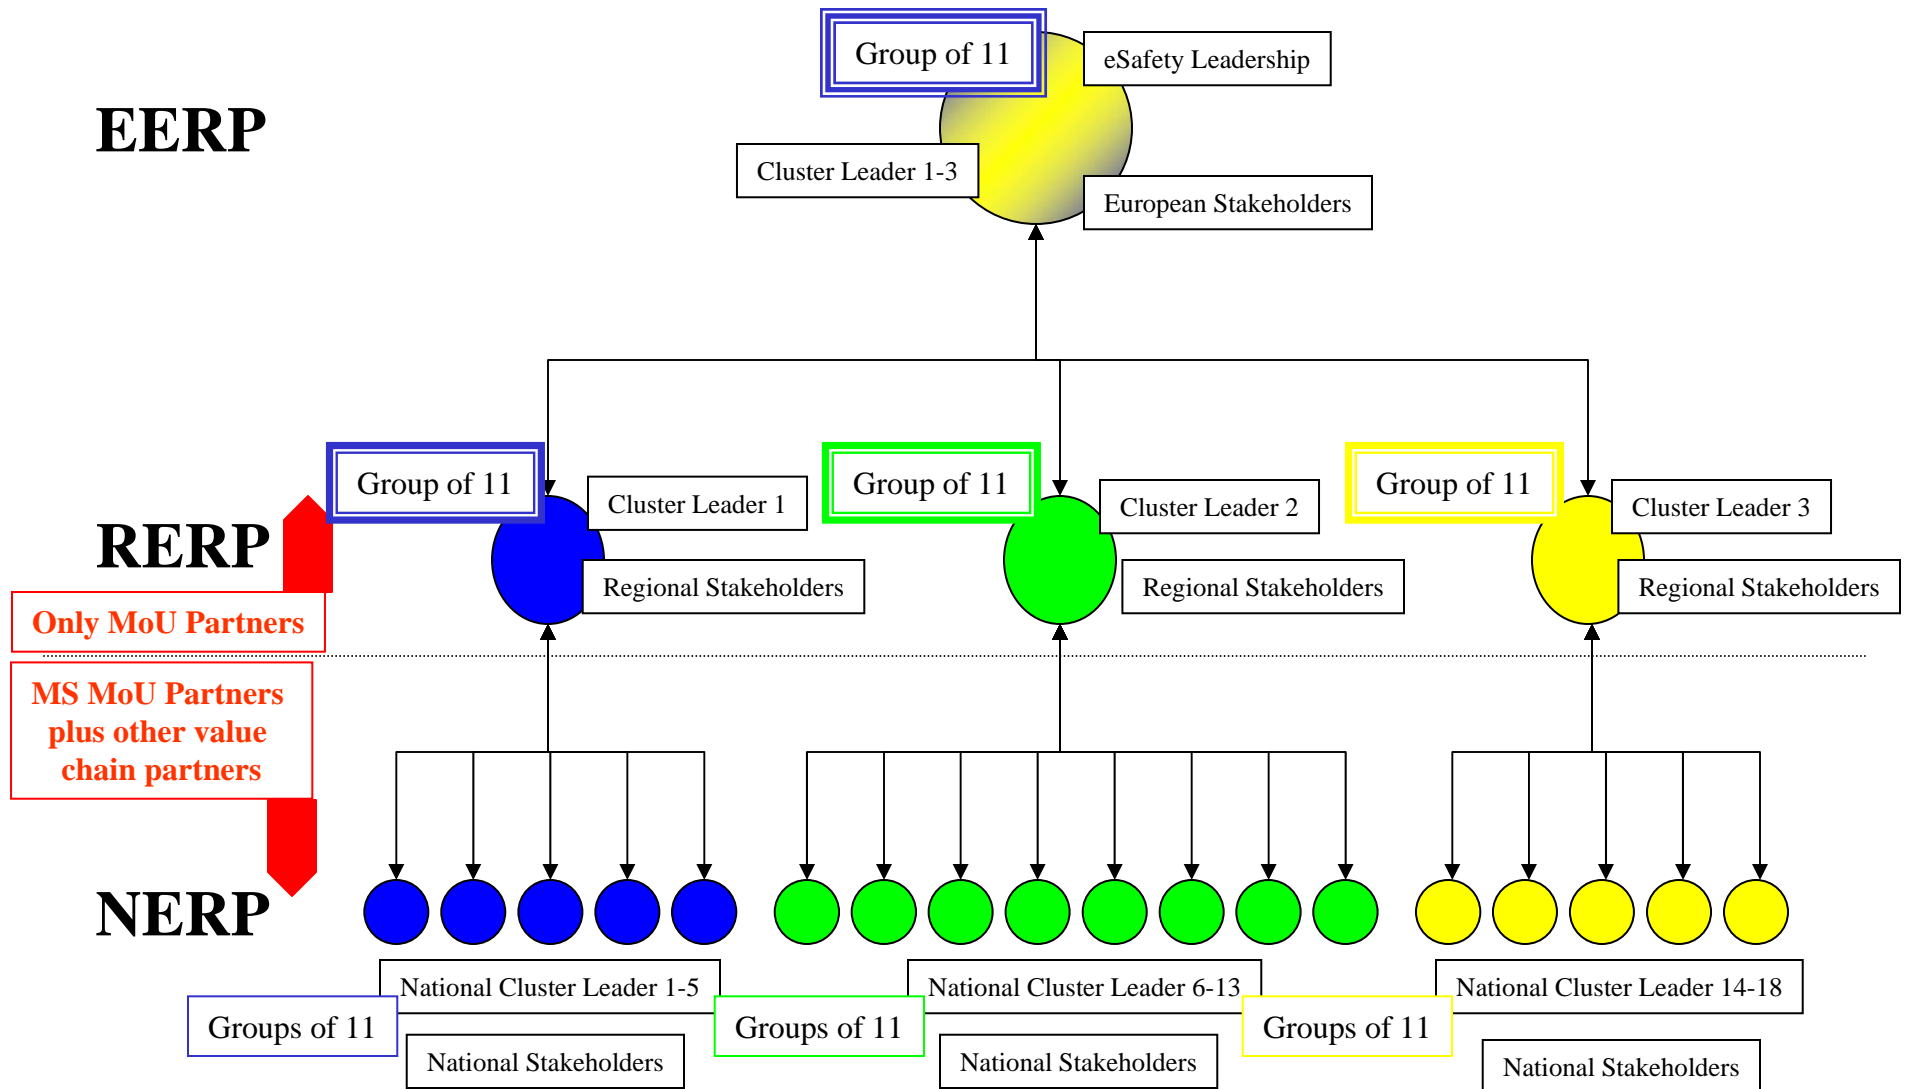

Project Structure

EERP

RERP

NERP

Conclusions

- ❑ eSafety Forum to constructively comment on this proposal, evaluate the pros and cons and suggests improvements to arrive at a realistic roll out concept
- ❑ eSafety Forum to support deployment
