[www.eScope.info](http://www.eScope.info)

## eSafety Support Objectives (1)

- Support the **development, deployment and use** of safety systems
- Support the **dialogue** between all *eSafety* stakeholders
- Monitor and promote the implementation of the *eSafety Working Group recommendations*
- Organise *eSafety meetings*, provide administrative support to the *eSafety Forum activities* through an independent **eSafety Support Secretariat** in Brussels

## eSafety Support Objectives (2)

- Support the development of the **implementation Road Map** for all *eSafety* systems
- Support the **User Outreach** actions
- Support the implementation process for a **European eCall system**
- Launch minor **studies**
- Support the **i2010 initiative**

## **eSafety Support key activities**

- **Stimulate and monitor the activities, progress and results of the eSafety initiative**
- **Establish an “eSafety Support Function”**
- **Continue and expand the work of the eScope Observatory**
- **Monitor and stimulate eSafety initiative progress and activities**
- **Easily accessible and up-to-date resource for information**
- **Launch of support activities**

## **WP6 Dissemination**

- **Goal:**  
to achieve a maximum visibility for the activities of the eSafety Forum
- **Tools:**  
the information secretariat, interactive website, electronic and printed newsletters and brochures, press releases, television news spots, articles in the general and professional press, etc.

# Conclusions

- eSafety Support needs to be pro-active, generate actions and take initiatives
- Support to all eSafety stakeholders
- Will work on the basis of **eSafety Forum SG** recommendations
- Shall produce valuable and high quality support material and information
- The website must be “**the eSafety reference**” for all stakeholders, but also clear for the general user
- All interactions with the media shall be done in close coordination with the Commission
