

# Stakeholders Forum 2008

## European Statement of Principles

### Issues and Perspectives

2<sup>nd</sup> April 2008

INRETS, Lyon, France

Organised by The European Network of Excellence HUMANIST  
Human-Centred Design for Information Society Technologies

*The aim of the HUMANIST Network of Excellence is to federate the research in the domain of user/system interactions and their applications on road telematics and driver assistance, with the purpose to improve road safety. This Stakeholders Forum is organised in order to exchange and to debate between relevant stakeholders with various backgrounds about the European Statement of Principles (ESoP): scope, research issues, implementation, perspectives.*
