

**3rd international conference "Protection of children in cars"
December 1 - 2, 2005
Munich, Germany**

Dear Madam, Dear Sir,

Please find enclosed the programme of the 3rd international conference "Protection of children in cars", taking place December 1 - 2, 2005 in Munich, Germany.

<<Child Safety 2005_web.pdf>>

The interdisciplinary programme of this Conference highlights the increased need of cooperation between accident researchers, car and child seat manufacturers and legislation. Trends in rule making worldwide, international harmonisation of usability criteria; experiences with new test methods (especially side impact tests) and advanced child dummies are reported as well as new programmes for international safety campaigns.

We would like to encourage you to inform yourself about the latest, and are looking forward to your inscription.

Best regards
Ute Alius
