Emilio Davila, EC – DG INFSO G4
David Graullera, University of Valencia
Marc Heddebaut, INRETS
Björn Hedlund, CLEPA
Juhani Jääskeläinen, EC – DG INFSO G4
Wolfgang Reinhardt, ACEA
Dieter Seeberger, DaimlerChrysler
Elisabeth Uhlemann, Volvo Technology

1. Welcome and introduction

Björn Hedlund, CLEPA as host and Uwe Daniel as chair welcomed the participants. Uwe Daniel presented the agenda for the day. The agenda was agreed on.

2. Last meetings minutes and documents were discussed and agreed on.

3. The WG-C presentation at the 8th eSafety Forum Plenary Meeting in Versailles was discussed, several points were added. The final version can be found on the web in the Plenary Meeting documents.

4. The final report of the WG was assembled from the feedback of the email consultation. All open issues were discussed and consensus could be reached. The final report will be presented at the Plenary Meeting as a handout, the document V1.0 will be placed in this meeting's folder on the website..

5. AOB

The chairman thanked all participating members for their contribution to the work of WG-C. Many advances have been made, especially with respect to spectrum allocation for ITS. Although credits for this success must go to many groups, the WG-C members can be satisfied with their contribution. Especially to have reached consensus between many groups of diverse interest and the seven recommendations will certainly show some impact in the future.

Remark from the chairman, added after the eSafety Forum Plenary Meeting:

The final report and recommendations of WG-C were unanimously adopted by the 8th eSafety Forum Plenary on September 18th, 2007 in Versailles, France. Therefore this group closes its business as planned, no further meetings will be held.
Berlin, September 25th, 2007.
